

GOVERNMENT COLLEGE GURDASPUR

Report On Students' Feedback

SESSION (2021-22)

Students at the college are, the essential and vital stakeholders who are tailored with the intent to prepare them for the professional world and take on all challenges of the dynamic world with their well-prepared, sharpened, and etched armaments. Students and their needs are catered to in the best possible way through academic, cultural, co-curricular, personality development, and other critical inputs. A constant touch is maintained with the students the heartbeat of the college and their take on initiatives by the college and the constant efforts of the faculty through comprehensive feedback. Student's survey is an initiative taken in the light of growth and development of both the students and the faculty and the institute to steer all actions in the right fruitful direction.

As per the total 93 responses submitted by the students of BA/BSC/BCom/BCA 6 semester. An average of 70% students were satisfied with the timely completion of the syllabus with effective teaching and communicative skills.

An average of 30% of the respondents agreed that teachers have a very good and excellent approach to teaching. An average of 4.88 of the respondents have categorized the teaching approach as moderate and thus calls for making teachers have more student-centric approach. Since teachers are unbiased and fair evaluators, An average of 50% students agreed that the teachers give assignments and conduct seminars for the attainment of a complete understanding of subjects and to develop soft skills. An average of 4.33 of the respondents claimed that teachers are unbiased and are accessible to all students to solve their individual physical, social, emotional, and learning issues. Most of the students registered that teachers put extra effort to design and conduct quizzes, class tests, and assignments to gauge the progress and complete understanding of what the students absorb in the teaching-learning process.

Overall, the feedback from the students is positive and highlights that though mentoring process and teaching-learning process is providing a good learning environment and experience still there is a big room for improvement to have wider and more

comprehensive aspects of teachers toward teaching and the institute staying committed to enhancing the learning experience of students.
